I am writing to oppose the Bank of Wal-Mart. Wal-Mart is the largest corporation in the world and to also have it involved in banking would create a dangerous concentration of commercial and financial power. Additionally, Wal-Mart has shown it cannot be trusted as a corporation as it has a history of bending and even breaking the law for the sake of their bottom line. The Bank of Wal-Mart would pose a threat to already existing community banks just as it has done to community stores, driving many out of business. There is no advantage to local communities in allowing Wal-Mart to get into banking. Please consider their request carefully and reject their application.

Sincerely,

Dee Steele
